To: Audit Committee

From: Mary Hom Chief Risk Officer

Date: May 21, 2020

Re: Internal Audit Reports

Since the last report to the Audit Committee on January 27, 2020, the 2019 President's Office Expenses, 2019 Employee Expenses, 2019 Petty Cash, and 2020 Bond Issuance Process Audits were completed. A copy of each report is attached, and a summary follows:

### 2019 President's Office Expenses

Objective(s):

- (1) To determine accuracy of the President's Office expenses recorded in Oracle and ensure they are accurately reflected in the General Ledger; and
- (2) To determine whether the expenses classified under the President's Office adhere to the applicable policies and procedures for employee expense reimbursements.

### Audit Results:

Upon completion of this audit, we noted no major matters involving internal control and its operation that we consider to be material weaknesses. Opportunities were identified to enhance expense reimbursement policies to improve process controls. In summary, we found the Corporation's guidelines were effective and that the President's Office expenses were generally processed with supporting documentation and correctly recorded according to the policies in the Employee Handbook.

### **2019 Employee Expenses**

Objective(s):

- (1) To evaluate the effectiveness of internal controls over employee expense reimbursements and other related expenses to ensure they were appropriate, properly authorized, and accurately recorded; and
- (2) To evaluate and test compliance with the Corporation's policies and procedures relating to employee and other related expenses.

# Audit Results:

We determined that management has effective controls in place to ensure employee reimbursement and vendor payments are properly authorized, appropriate, and accurately recorded. Our review of the selected expenses determined that employees generally complied with the policies and procedures for processing employee reimbursements and vendor payments.

# 2019 Petty Cash

### Objective(s):

To determine whether adequate internal controls exist toensure that:

- (1) The cash asset was safeguarded and maintained in the proper amount;
- (2) Petty cash disbursements were in compliance with the Corporation's policies and procedures; and
- (3) The Imprest Fund was properly authorized, processed and reconciled.

## Audit Results:

We found the Corporation's guidelines to be effective and found no matters involving internal controls and its operation that we consider to be material weaknesses. With respect to the specific audit results, we established that the petty cash disbursements were in compliance with policies and procedures; the petty cash on hand was kept in a secured lockbox and maintained in the proper amount; and all expenditures were properly authorized, processed, and reconciled.

# **2020 Bond Issuance Process**

## Objective(s):

- (1) To ensure there are effective debt issuance practices, proper oversight, and governance;
- (2) To determine accuracy of bond proceeds and the initial transfers at debt issuance and closing;
- (3) To ensure compliance with volume cap regulations and the use of such source as part of the bond issuance; and
- (4) To analyze the cost of issuance and assess reasonableness.

## Audit Results:

For the selected bonds reviewed, we determined that HDC had adequate controls and procedures in place over the bond issuance process, and there was proper oversight and governance. Specifically:

- The HDC Board approved the bonds prior to issuance, and the amounts, ratings and interest rates that were approved agreed to the corresponding bonds' Official Statements.
- All third parties (banks, underwriters, rating agencies, etc.) associated with the bonds, were properly approved prior to the bond issuance.
- Bond Purchase Agreements (BPA) were signed by authorized principal officers, and signed NYC Comptroller certifications were on file.
- Volume cap allocation and the listing of projects were properly declared and filed in IRS Form 8038.
- Bond issuance proceeds were confirmed and recorded in the General Ledger and deposited in the corresponding BPA bank account.
- Data analysis showed that the average Cost of Issuance (COI) for the five (5) Open Resolution bonds issued during the audit scope period was within a reasonable range relative to similar bond issuers.
