Re: Counterparty Credit Risk Exposure

Please find attached an unaudited report detailing the Corporation's counterparty exposure as of October 31, 2023. The previous report to the Audit Committee was dated September 30, 2023.

There were no rating agency actions of note, and there were no new approved counterparties.

HDC's counterparty exposure remains diversified with the largest exposures being with FNMA, FHLMC, and Wells Fargo. The Wells Fargo exposure is primarily in the form of construction letters-of-credit covering 25 projects and five interest rate hedges.

Investments rated double-A or higher were 48% of total investments, versus 51% at the last report. Investments rated triple-B or not rated were 37% of total investments, versus 35% at the last report. All investments rated triple-B or not rated are fully collateralized by high quality U.S. Treasury/Agency securities and/or FHLB letters-of-credit.

HDC exposure to liquidity providers increased \$50 million to \$591.8 million due to the issuance of the 2023 Series B-2 bonds. HDC exposure to swap providers increased to \$1.76 billion as HDC entered into a \$125 million interest rate swap with Wells Fargo.
